SENATE HEARS SPEECH: APPOINTS COMMITTEES

WASHINGTON, Dec. 17.—Aside from the appointment of committees, which took place at the beginning of today's session of the Senate, the need of improvement of the inland waterways of the United States was the chief subject in that body today. Senator Newlands of Nevada spoke for two hours on his bill providing for the appointment of an inland waterways commission and for the development of inland waterways of the country.
The Senate adopted the resolution of Senator Dick extending the time allowed the militia of the several States, Territories and the District of Columbia to conform to the provisions of the act of June 21, 1903, which was necessary in order that the militia of the several States might take advantage of the appropriations that have been made.
The resolution of Senator Culberson of Texas directing the Committee on Finance to investigate the causes of the present financial stringency and to recommend means for its relief was allowed to lie on the table, and it will be the subject of remarks by Mr. Culberson at some future time.
At 2:55 the Senate adjourned.

WYATT RETURNS AND BRINGS SOME WARMTH

Predicts That Cold Spell Will Be Broken by a Fair Day.

Warmer weather is promised for Wednesday. Dr. R. J. Wyatt, the regular weather man, who has been on a vacation, has returned before his time was up, because Salt Lake is getting such a miserable weather. It was cold Tuesday, and the thermometer dropped to 17 degrees above zero, and every one who was out early in the morning was of the opinion that it was about 10 degrees below.

High barometric pressure still extends over the northern Rocky Mountain slope, pushing even to the southern Atlantic seaboard. Storms and cloudy weather prevailed throughout the central and eastern portion of the country.

Local Conditions.
Tuesday's record at the local office of the weather bureau for the twenty-four hours ending at 6 p. m. was as follows: Maximum temperature, 22 degrees; minimum temperature, 17 degrees; mean temperature, 24 degrees, which is 1 degree below normal.
Accumulated excess of temperature since the 1st of the month, 48 degrees.
Accumulated excess of precipitation since January 1, 1.99 inches.
Relative humidity, 82 per cent.
Total precipitation from 6 p. m. to 6 p. m., .01 inch.
Accumulated excess of precipitation since the first of the month, .51 inch.
Accumulated excess of precipitation since January 1, 2.56 inches.
Local forecast for Salt Lake City and vicinity Wednesday, fair and warmer.

You don't really know what's good until you use Ghirardelli's Ground Chocolate
Professor von Liebig says: "Good chocolate preserves health and prolongs life." Coffee is dangerous, and wishy-washy substitutes unsatisfying. Ghirardelli's Ground Chocolate—the original and genuine ground chocolate—is prepared by the exclusive Ghirardelli process which effects a perfect blending of chocolate and sugar, and results in a distinctive and most delicious flavor. It is superior in every respect to the out-of-date cake chocolate and may be prepared instantly by the mere addition of boiling milk. A cup of Ghirardelli's Ground Chocolate at breakfast is delicious, stimulating, strengthening and sustaining. Ghirardelli's Ground Chocolate also takes the place of cake chocolate for all culinary uses. It is always ready, makes lighter cakes and puddings, and imparts a most delicious flavor to them.
